

## SMOOTH & FIRM

The Environ Ionzyme® C-Quence range enriches the skin with an exciting combination of powerful vitamins and antioxidants, introducing a new dimension to advanced skin care.

This range is the most luxurious Environ® home treatment available. It will enhance the restoration of the skin cells resulting in a more youthful and healthy complexion.

Refining the surface of the skin, C-Quence assists in reducing the uneven tone of blemishes, dark pigmented areas and scarring. By thickening the skin's upper layers and normalizing the skin cells this range improves moisturisation, helps to firm and smoothe wrinkles and fine lines and enhances the appearance of the skins texture!
